

# NEVER FORGIVE NEVER FORGET

BEHIND  
ENEMY  
LINES  
Anti-Imperialist Resistance

SEPTEMBER 2025  
NATIONAL DAY  
OF AGITATION

**STAND WITH PALESTINE! THE EMPIRE IS THE ENEMY!**

**Do you remember how you felt when hearing the cries of 6-year-old Hind Rajab, begging for help as night fell, lying beside her family's bodies after their car was riddled with over 300 bullets?**

Do you remember how you felt when writer Refaat Alareer was murdered, seemingly foreshadowing his death in his own words?

We are approaching the second anniversary of Al-Aqsa Flood: the day Palestinian resistance broke through the apartheid wall, and the day the US and Israel launched a genocidal war against Gaza. Since then, Israel—armed, funded, and shielded by the US—has carried out atrocities so numerous and grotesque they defy counting. The bombing of hospitals; the assassination of journalists; the starvation of children; the execution of Hind Rajab. Each one should have been a reset for human morality. But the genocide carried on unchecked.

**Through it all, two things remain true for millions of people around the world: We will never forgive. We will never forget.**

Today, we honor the martyrs whose lives have been taken by the US-Israel War Machine. We remember the life of the young girls Hind Rajab and Fatima Abdullah, of journalists Mariam Abu Daqqa and Anas Al-Sharif, of writer Refaat Alareer, of activist Ayşenur Eygi, and we honor kidnapped Dr. Abu Safiya, who the IDF has unjustly held hostage since December 2024. We honor the thousands of lives stolen—entire bloodlines, medical personnel, members of the media, and children robbed of their future.

*Hind Rajab, 6, murdered by the US-Israel War Machine in January 2024*

*And we will not forgive. These deaths were not accidents, but deliberate acts of extermination. We will not forgive the US-Israel war machine for stealing these lives. We will not forgive the US-Israel war machine for starving Gaza, for bombing it, for slaughtering its people. We will not forgive the Biden and Trump administrations that funneled weapons and money while Israel killed with impunity. The US-Israel war machine has the blood of hundreds of thousands on its hands.*

But memory and outrage mean nothing if they don't drive action. We live in the belly of the beast, the country bankrolling this genocide in Gaza, the West Bank, Lebanon, and beyond. Our duty is clear: channel grief and horror into action, channel anger into resistance. What will it take to stop the genocide? We must reignite the movement for Palestine and against US imperialism. We owe it to Hind. We owe it to Refaat. We owe it to every life stolen in Palestine by the US-Israel War Machine.

**It's time to flip the fucking table. No more business as usual. Unless we take the streets, shut things down, and refuse to let the leaders of this country proceed with their genocide, business as usual, there will be more Hind Rajabs. More Fatimas. More Mariams.**

Enough. We will never forget the martyrs. And we will never forgive the cowardly and despicable leaders who carry out this slaughter.

On October 7, we act. Across the country, Behind Enemy Lines is working with people who are preparing to shut down business as usual. In Chicago, we're organizing every day leading up to the anniversary: poster, talking to people about the horrors of US imperialism, and spreading the word. On October 7, we rally at Devon and Damen at 11 am, and at 4 pm, we protest at the genocidal Israeli Consulate at 500 W Madison. From New York to North Carolina, Colorado to Iowa to Oregon, people are answering the call. Never forgive. Never forget. Join us.

***October 7<sup>th</sup>. No business as usual.  
Where will you be?***
